## Professional Summary

Self-motivated Full-Stack Web Developer with strong experience in front-end and back-end development, specializing in building scalable, high-performance web applications with intuitive user interfaces. Currently undertaking a Full-Stack Developer Internship at Constructive Curiosity, contributing to real-world production systems using modern technologies including React.js, Next.js, TypeScript, and Supabase.

Experienced in collaborating with designers, developers, and stakeholders to deliver clean, maintainable, and optimized solutions. Skilled in system architecture, API integration, performance optimization, and code quality improvements. Passionate about continuous learning, writing clean code, and delivering exceptional digital experiences.

## Technical Skills

**Languages:** JavaScript, TypeScript, Python
**Web Technologies:** HTML, CSS, Bootstrap, Tailwind CSS, WordPress, Elementor
**Frameworks & Libraries:** React.js, Next.js, React Native (iOS & Android)
**Backend:** Node.js, Express.js, PostgreSQL, MongoDB, GraphQL
**API Integration:** RESTful APIs
**IT Support Skills:** Troubleshooting, system configuration, user support, documentation, ticket handling
**Tools & Platforms:** Figma, Slack, Jira, Git, Vercel

## Professional Experience

### Full-Stack Developer Intern

**Constructive Curiosity, USA** — *Jan 2026 – Present*

- Working on real-world production applications using **React.js, Next.js, TypeScript, Supabase, and Tailwind CSS**.
- Performing **UI bug fixing, system troubleshooting, component optimization, and feature enhancements**.
- Collaborating with designers, developers, and product managers to deliver scalable and user-friendly solutions.
- Reviewing existing codebases to improve performance, maintainability, and system reliability.

- Supporting development workflows, testing, documentation, and deployment processes.

**Front-end Developer**

**Zero Logic Space Pvt. Ltd., Lalitpur, Nepal** — *April 2020 – June 2022*

- Built responsive user interfaces using **React.js and Next.js**.
- Integrated RESTful APIs for dynamic data handling.
- Conducted debugging, testing, and UI optimization.
- Worked closely with UI/UX designers and backend teams.

**Team Lead & Backend Developer**

**Zero Logic Space Pvt. Ltd., Lalitpur, Nepal** — *June 2022 – April 2024*

- Led development teams and managed project timelines.
- Designed scalable backend architectures using **Node.js, Express, PostgreSQL & MongoDB**.
- Implemented secure API integrations and database management.
- Provided mentorship and technical guidance to junior developers.

**React Native App Developer (iOS)**

**Zero Logic Space Pvt. Ltd., Lalitpur, Nepal** — *April 2024 – November 2024*

- Developed and maintained iOS apps using **React Native**.
- Integrated APIs and optimized app performance.
- Performed debugging, testing, and release preparation.

## Education

**Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)**
Bhaktapur Multiple Campus, Tribhuvan University, Nepal *(2018 – 2022)*

## Projects & Academic Engagement

**IT Code Fair 2025 – Charles Darwin University (CDU)**

**Event Management System Demonstration**

- Designed and developed a full-stack **Event Management System**.
- Frontend: **Next.js, TypeScript, Tailwind CSS**

- Backend: **Node.js, Express, PostgreSQL**
- Implemented **secure authentication (NextAuth)** and role-based access.
- Delivered live system demonstration to academic staff and peers.
